Corriemoor

BRAND AND PAPER GUIDE

Credit Approval Paper

Every Credit Approval Paper that goes to Credit Committee is built on the Corriemoor template (`Corriemoor_Credit_Paper_Template.pptx`, 4:3, 16 layouts named `CC …`). This guide fixes the look, the section order and the conventions. Version 3.1, September 2024. Owner: Credit Risk and Origination, Edinburgh.

1. The logo

Corriemoor

Teal on white or pale grey (`Corriemoor_logo.svg`, `.png`)

Corriemoor

White on teal only (`Corriemoor_logo_white`)

- The mark is the word **Corriemoor** in teal with a thin coral underline. The underline is part of the mark: never recolour, remove or lengthen it.
- Minimum width 22 mm on paper, 90 px on screen. Clear space on every side equals the height of the capital C.
- In the template the logo sits bottom-left of every slide after the cover at 0.9 inch wide; on the cover it is 2.9 inches wide, top-left. Do not move, crop, stretch or add effects.

2. Colour

Colour	Hex	RGB	Use
Deep teal	#0E5E6F	14, 94, 111	Primary. Slide titles, section tags, table header fills, rules, key figures, chart actuals.
Slate	#3D4A52	61, 74, 82	All body text, table text, notes and footers.
Coral	#E2725B	226, 114, 91	Risk and breaches only: the high zone of the risk matrix, breached covenant values, negative headroom. Never decoration, never for emphasis.
Pale grey	#EEF1F2	238, 241, 242	Table banding, metric tiles, panels.
White	#FFFFFF	255, 255, 255	Slide background; text on teal.

SUPPORTING TINTS (CHARTS AND MATRIX ONLY)

Teal 60%	#6E9EA9	Forecast periods in charts (actuals are full teal).
Grey	#9AA5AB	Comparison series, for example the downside case.
Coral 20% / 50%	#F9E3DE / #F0B8AD	Medium and high zones of the 5 × 5 risk matrix; the top zone is full coral with white text.

No other colours. Standard Office blues, greens and yellows are not on-brand and are removed at review.

3. Typography

Trebuchet MS throughout; the theme fonts are set to it, so do not choose another face. No italics for emphasis; use bold sparingly.

Element	Size	Rule
Slide title	20 pt bold	Teal. An action title that states the conclusion, no more than two lines.
Section tag	9 pt bold caps	Teal, above the title; the section name from the table overleaf, for example FACILITY TERMS.
Body and bullets	10 to 14 pt	Slate. Dense slides use 10 pt; never below 10 pt in bullets.
Tables	10 pt	Minimum 9 pt for dense tables. If a table does not fit at 9 pt, split it or move it to the appendix; do not shrink it further.
Notes block	8 pt	Slate, bottom of the slide, above the footer rule.
Footer and slide number	8 pt	Borrower, stage, "Strictly confidential"; slide number bottom-right.

Charts are native PowerPoint charts so their values can be traced and updated. Pasted pictures of charts are not accepted in the body of a paper.

Paper structure

A Credit Committee paper has thirteen sections in the standard order below, followed by an appendix. Each section has its own layout; use it.

No.	Section	Layout	Status	Must contain
1	**Cover**	CC Cover	Locked	Borrower, facility, stage, committee date, internal grade, deal team, "Strictly confidential".
2	**Executive summary and recommendation**	CC Executive summary	Locked	Facility, amount, internal grade, recommendation, strengths, concerns with mitigants.
3	**Facility terms**	CC Facility terms	Mandatory	Two-column term sheet incl. pricing, financial covenants and security.
4	**Sources and uses**	CC Sources and uses	Mandatory	Two tables that balance to the £k, with % of total.
5	**Borrower overview**	CC Borrower overview	Mandatory	Business, customers, ownership, management; key facts table.
6	**Financial summary**	CC Financial summary	Mandatory	£k table (actuals then forecast), native chart, commentary.
7	**Leverage and liquidity**	CC Leverage and liquidity	Mandatory	Three metric tiles, native chart, headroom table.
8	**Covenants**	CC Covenants	Mandatory	Level, definition, base case, headroom; must equal slides 3 and 7.
9	**Downside case**	CC Downside case	Mandatory	Base against downside, breaches in coral, mitigants.
10	**Security and structure**	CC Security and structure	Mandatory	Structure, ranking, security table; a drawn chart may replace it.
11	**Key credit risks**	CC Key credit risks	Mandatory	5 × 5 probability by severity grid and risk table.
12	**Conditions precedent**	CC Conditions precedent	Mandatory	Numbered table: condition, owner, status.
13	**Approval and sign-off**	CC Approval and sign-off	Locked	Decision requested; four approver boxes in fixed order.
A+	**Appendix**	CC Appendix - free / exhibit / CC Blank	Free	Anything supporting the paper; screenshots allowed with source file filed.

Rules

LOCKED: SLIDES 1, 2 AND 13

Always these layouts. The cover is first, the executive summary second, and approval and sign-off is always the last slide before the appendix. The fields on these layouts are fixed; do not delete or rearrange them, and do not insert slides between them and their neighbours.

MANDATORY: SLIDES 3 TO 12

All ten must appear in every Credit Committee paper, one slide each, on its own layout. They are shown in standard order; the deal lead may reorder them where the credit story needs it, with one constraint: **Covenants must come after Facility terms**. Do not merge two sections into one slide or split one across two.

FREE: APPENDIX

After sign-off. Any number of slides, lettered Appendix A, B, C in the section tag, on any layout including `CC Blank`. Custom slides and screenshots are allowed here. Appendix slides still carry the footer and, where they hold numbers, a Notes block.

STAGES

- **Pre-screen:** a short paper for the origination meeting. Required: slides 1, 2, 3, 5, 6 and 11 and sign-off; the other sections are optional. The stage reads "Pre-screen" on the cover and in the footer.
- **Credit Committee:** all thirteen sections. The stage reads "Credit Committee". Past papers in this pack are Credit Committee papers.

TITLES AND TAGS

The section tag carries the section name only, with no number, so a reordered paper is still correct. Appendix slides read "Appendix A", "Appendix B" and so on. Footers read **[Borrower trading name] | [Stage] | Strictly confidential**.

Conventions

Numbers

Item	Format	Rule
Money	£6,000k in prose; 6,000 in a table headed £k	£k, no decimals, thousands separators. Never £m.
Negatives	(1,240)	Parentheses, never a minus sign. Zero is shown as a dash.
Covenant ratios	2.04x, 1.30x, 0.60x	Two decimals and a lower-case x.
Purchase multiples	5.2x	One decimal.
Percentages	13.9%; 67%	One decimal where computed from the model (margin, growth, headroom, loan to value); whole numbers where quoting an operating fact (share of revenue, retention, churn).
Periods and dates	FY24A, FY25F, Q4-24; 24 June 2025	A actual, F forecast. Long dates in prose; 24 Jun 2025 in tables and notes.

Notes block

Every slide that carries numbers ends with one paragraph in the Notes placeholder starting **Notes:**, with notes numbered **1. 2. 3.** from 1 on each slide. A superscript marker follows the figure it explains. The last note is always the source: “Source: document, date.” The cover and sign-off slides carry no notes.

Linked covenant values

> Covenant levels appear on **Facility terms (3)**, **Leverage and liquidity (7)** and **Covenants (8)**. They are one set of values shown three times: the number, unit and format must be identical on every slide, and headroom on slides 7 and 8 must be computed from that level. If the term sheet changes, change all three and reissue.
>
> **Headroom:** on a maximum test (net leverage, debt to ARR) it is 1 less actual divided by level; on a minimum test (debt service cover, ARR) it is 1 less level divided by actual; on minimum cash or liquidity it is actual less level in £k. Negative headroom, a breach, is shown in coral.

Internal grade

Grade	Description	Indicative one-year PD	Typical profile
CC1	Exceptional	under 0.25%	Cash-backed or investment-grade equivalent
CC2	Strong	0.25% to 0.75%	Low leverage, long record, diversified
CC3	Good	0.75% to 1.5%	Profitable, recurring revenue, moderate leverage
CC4	Satisfactory	1.5% to 3%	Acceptable cover, some concentration or cyclicality
CC5	Elevated	3% to 6%	Growth or venture risk; loss-making with ARR and liquidity covenants
CC6	Weak	6% to 12%	Watchlist; outside standard appetite
CC7	Impaired	over 12%	Default or work-out

Written **CC** plus one digit, with no space, plus or minus. It appears on the cover and on the executive summary and must be identical on both. Grades CC5 and above require monthly liquidity reporting as a condition of the facility.

Naming

- **Borrower:** the legal name (Brightmere Kitchen Services Limited) in the recommendation, facility terms and sign-off only; the trading name on the cover and in the footer; the short form (Brightmere) everywhere else.
- **Facility:** amount first, then the instrument: "£6,000k senior term loan", "£10,000k venture debt facility". Tranches are "Tranche A", "Tranche B".
- **Stages:** "Pre-screen" and "Credit Committee", spelt out; "CC" is reserved for grades.
- **Files:** `Borrower_Name_Credit_Approval_Paper_MonYYYY.pptx`; keep the model, the screenshots' source files and the term sheet in the deal folder.
