Decision Note: house style

Lumen Strand Capital, Amsterdam. Secondaries and multi-strategy. Version 3.0, 14.01.2025. Applies to every Decision Note that goes to the Investment Panel, in stages Opportunity and Decision.

1. COLOURS

Name	Hex	Use
Near-black	#1A1A1A	Text, headings, rules, recommendation band
Vermilion	#E4572E	The one accent: tab, annex tag, block headings, source references, focus data point
Light grey	#F2F2F2	Key-figure tiles, commentary panel, shaded rows
Mid grey	#5E5E5E	Secondary text, footers, notes
Rule grey	#A6A6A6	Hairlines, chart baseline, non-focus bars
White	#FFFFFF	Page; text on near-black and vermilion

Charts: vermilion marks the focus series or point only; all other series are near-black or greys. No other colour, no gradients, no shadows. Theme colours in the template carry these values.

3. LOGO

– lumen strand

– Lower-case wordmark "lumen strand" led by a short vermilion bar: "lumen" bold, "strand" regular, near-black.
– Sits top right on every page from the slide master; do not paste it again on a slide.
– Clear space equal to twice the bar height on all sides. Minimum width 25mm.
– Files: Lumen_Strand_logo.svg and Lumen_Strand_logo.png (transparent). Never recolour, outline or place on photographs.

2. FONTS

Element	Font	Size
Decision headline	Arial bold	17pt
Annex title	Arial bold	18pt, two lines at most
Annex body, bullets	Arial	12pt; commentary panel 11pt
Decision page text	Arial	9.5pt; minimum 8pt anywhere
Tables	Arial Narrow	10pt; 8.5pt in Price and terms
Block headings	Arial bold caps, vermilion	8pt, letter-spaced
Basis, notes, footer	Arial, mid grey	8pt

Theme fonts are Arial for headings and body. Tables are the only use of Arial Narrow. Do not shrink a table below its stated size to make it fit; split it or move rows to another annex.

4. PAGE AND MASTER

– A4 landscape, 297 x 210mm (11.69 x 8.27 in), side margins 11.4mm. One page size for the whole note.
– Master carries the vermilion tab (top left), the label DECISION NOTE, the logo, a header rule and a footer rule.
– Footer, left to right: company, "Decision Note", stage, "Strictly private and confidential"; the date of the Decision meeting as DD.MM.YYYY; page number, bold, right.
– No cover page, no contents page, no divider pages. Page 1 is the Decision on a page.

6. LAYOUTS IN THE TEMPLATE

Layout name	Use
LS Decision on a page	**Locked**, page 1 only
LS Annex – Text	Free annex
LS Annex – Two columns	Free annex
LS Annex – Table	Free annex
LS Annex – Table + commentary	Free annex
LS Annex – Chart + commentary	Free annex
LS Annex – Exhibit	Free annex (picture)
LS Annex Z – Sources	**Locked**, last page only
LS Blank	Custom pages; keep tag and title position

7. DECISION ON A PAGE: FIXED ANATOMY

€0.0m	€0.00	0.0x	0.0x	0.0%
Ticket	Price	Entry	Returns	Fund fit

– Headline (recommendation, ticket, price, base-case return), then five key-figure tiles in the order above.
– Three columns: What we are buying with Price and terms below it; Why we do it; Key risks and mitigants. Then the Recommendation band and the Basis line.
– Price and terms is a table of eight rows. Why: five bullets at most. Risks: four at most, each with its mitigant.

5. STAGE NAMES

Opportunity, then Decision. The stage is shown in the footer ("Stage: Decision"). The Investment Panel approves; the deal team signs off the note.

8. STRUCTURE RULES: WHAT IS LOCKED, WHAT IS FREE

LOCKED
Page 1, the Decision on a page: layout, five blocks, their order and headings, the key-figure strip, the Recommendation band and the Basis line cannot be added to, moved, resized or removed. Only the text in the placeholders changes. Exactly one page, always first.

A1 **A2** **A3** **FREE** Annexes: any number, any topic, any order, any annex layout or a custom page.

- **Numbering.** Annexes are numbered A1, A2, A3 and so on in the order they appear. If pages are reordered, added or removed, renumber and update every cross-reference ("see A3") on all pages.
- **Each annex** has a vermilion tag with its number, and a title that states the point in at most two lines. A statement, not a label.
- **Annex Z: Sources** is always the last page, tag "Z", never numbered A-anything. It lists every source reference used in the note and nothing else.
- Past notes differ in annex order and mix; the Decision page is the only fixed point.

9. SOURCE REFERENCES

- Every number taken from a source carries a superscript reference, for example 6.8%[3] or EBITDA[2,5]. In tables the reference sits on the row label or column header; for a chart, in its notes line.
- Numbers are assigned in order of first appearance: Decision page first, then annexes in page order. A reference may be reused anywhere; a number is never reused for another source.
- Superscripts are vermilion, same font and size as the text, raised 30%. No footnotes at the foot of the page.
- Figures calculated by the deal team cite the returns model; the Annex Z entry names the file and tab.
- Annex Z columns: Ref, Source, Document and location, Date (DD.MM.YYYY), Used on.

10. CURRENCY AND FX STATEMENT

- **Reporting currency is EUR.** Deal data in another currency is converted into EUR throughout; the note never mixes currencies on a page, except the bracketed originals on the transaction annex.
- **One rate per note:** the ECB euro foreign exchange reference rate on the last business day before the note is issued. State it on the Decision page, in the Basis line, in this form:

```
Basis: reporting currency EUR; GBP converted
at £1 = €1.1869 (ECB, 0.8425 GBP per EUR,
11.09.2024), one rate per note.
```

- Repeat the rate in the Basis and notes line of the transaction annex and in the notes line of Annex Z. Quote the rate to four decimals, the ECB quotation alongside.
- Original-currency amounts appear in brackets on the transaction annex only, for example €5.9m (£5.0m). Nowhere else.
- Convert at full precision and round once, on display. Totals in EUR may differ from the sum of rounded parts by 0.1; say so in the notes line.
- MOIC and IRR are computed in the deal currency; euro proceeds use the same constant rate. No FX forecast. State the effect of a 5.0% move in the rate on the ticket.
- If the deal currency is EUR, say so in the Basis line ("no FX conversion applied").

11. STAGE AND PANEL CONVENTIONS

- Returns are gross of fund fees and carry unless the page says otherwise. Base, bear and bull cases with weights of 50.0%, 25.0% and 25.0% unless the Panel has agreed others.
- Risk (Ilse Mertens) reviews the risk annex before the Decision stage; the review date is stated in its notes line.

12. NUMBERS

Item	Format
Money	€27.3m (one decimal); €850k below €1m; €1.2bn above €1,000m
Per share	€17.50 (two decimals)
Thousands, decimals	1,250,000; decimal point, comma for thousands
Negatives	(3.1) in tables; −€3.1m in running text
Percentages	One decimal everywhere: 6.8%, 94.0%
Multiples	4.2x, one decimal; MOIC 2.1x
IRR, years	19.4%; 4.1 years
Counts	Whole numbers: 2,950 customers
Share classes	Series A Pref.; ordinary shares

13. DATES AND PERIODS

Item	Format
Dates	DD.MM.YYYY: 22.05.2025. No month names, no US order.
Fiscal years	FY2024; estimates and budgets FY2025E
Point in time	"at 31.03.2025"; period "year to 31.03.2024"
Footer date	Date of the Decision meeting

14. TABLES AND CHARTS

- Tables: header row bold between 1.25pt near-black rules, body rows separated by 0.5pt light grey, total rows bold, focus cells vermilion bold. Figures right-aligned.
- Charts are native and editable, labelled directly, no legend if one series, no chart title (the annex title carries it).
- Screenshots are allowed as annex exhibits when the caption names the source file.
